ACS Chemical Biology, 15 6 , 1650-1661. In order to help IRP scientists with their scientific word processing and graphic workstation tasks, ICS maintains two Macintosh personal computers connected to an Apple LaserWriter printer in the central computing facility in Bldg.

Progress in Neuropeptide Research

The clinical aspects of gastroenterology, hepatology and nutrition are emphasized in this elective. The cooperating medical center is the Pediatric Clinic in Skopje, Yugoslavia. The FDG-PET method of evaluation has recently been extended from the gliomas to other intracranial tumors, particularly meningiomas.
