The Disabled Elderly and Their Use of Long

Income and Poverty Today's elderly on the average are economically better off and in better health than their counterparts of a few decades ago.

Implications of Population Change

Thus, estimates of how long an individual is likely to be in a nursing home for a single stay differ considerably from estimates of how long a nursing home user is likely to be in a nursing home over his or her entire lifetime.

Caring for Frail Elderly People: Policies in Evolution

In 1900, 4 per cent of the population were aged 65 and over, comprising 3.

Health Equity

Medicare and, especially, Medicaid remain the primary sources of public funding for long-term care services for the elderly, both institutional and non-institutional. Specialised institutions such as orphanages and mental hospitals were developed to care for non-elderly dependent populations. Raised federal matching of state social services expenditure to 75:25.

The Changing Demographics of Nursing Home Care: Greater Minority Access... Good News, Bad News

The methods employed have, however, been progressively developed into a more sophisticated system balancing provider costs, client needs and expenditure control mechanisms. Finally, we are witnessing growing diversity in the types of residential arrangements available for the elderly to choose from when the decision is made that they can no longer live at home or with family.

The Changing Demographics of Nursing Home Care: Greater Minority Access... Good News, Bad News

With a shorter length of stay, clinicians have less opportunity to prepare the patient and family for care at home. Informal caregiving research has also demonstrated the remarkable stability of informal caregiving over time. SOURCE: Bureau of the Census, 1993c.

The Disabled Elderly and Their Use of Long

These services require more professional nursing care, judgment, supervision, evaluation, and resources than in the past Shaughnessy et al.
Trending Topics The biggest issues affecting older immigrants right now and probably in years to come are social isolation and economic insecurity.
