Social changes have not only included the right to vote, greater equality in the workforce, as well as reproductive rights, but also the recognition of injustices and the ways in which both men and women can work to change them. We see the degradation of our culture and morals, we see the corruption in politics and these leftist movements and we know how to fight back. Whether this is due to discrimination is very hotly disputed, however economists and sociologists have provided evidence to that effect.

The foundation of game and its pursuit should be and is almost purely sexual. This might suggest that Haslanger's analysis should be rejected in that it does not capture what language users have in mind when applying gender terms. By contrast, some feminists have argued that sex classifications are not unproblematic and that they are not solely a matter of biology.
