## Crayola Jungle Animal Coloring Book With 50+ Stickers, Gift For Kids, 96 Pages

For nearly 20 years, Silver Dolphin Books has published award-winning activity, novelty, and educational nonfiction books for preschoolers to 12-year-olds. Gave 4 stars as I feel its targeted at the wrong age and the stickers are in various parts of the book away from the pages they relate to so you need to cut the sticker pages out of the book or keep turning back and forth between sections.

## Galt REUSABLE STICKER BOOK

I received this in exchange for completely honest review of the product. But what we really enjoyed were the stickers. I find that if a coloring book has too many background details and small coloring sections, then my daughter does not want to color those pages.

## Crayola Jungle Animal Coloring Book With 50+ Stickers, Gift For Kids, 96 Pages

This is not that type of coloring book since the stickers don't have a pre-determined spot on the coloring page, nor does it seem the characters on the stickers have anything in common with the mostly animal characters pre-printed on the pages of the book. The stickers in the front are an added bonus and are fun for my 4 year old.

## My First Animal Fun Sticker Book : Over 250 Stickers!

This must-have activity book is based on Julia Donaldson and Nick Sharratt's wonderful books for toddlers, including One Mole Digging a Hole, Goat Goes to Playgroup, Animal Music, Hippo Has a Hat and Chocolate Mousse for Greedy Goose. My favorite part of this coloring book is that the pictures are simple, but they contain enough detail to make coloring the animals still fun. The cover says there are over 500 stickers, but keep in mind that includes one full page of small star stickers and several pages of stickers with just words.

## Animal Fun Variety Pack Sparkle Stickers

I love this coloring book; but most importantly, my five-year-old daughter loves this coloring book. What's great about these books is after all of

the stickers are used, my toddler still likes going through them and sounding out animals just as he would with any other book.

### **Sticker by Sticker: Animals**

. I would recommend this book. Thunder Bay Press celebrates the book in all its forms, and publishes something for everyone.

### **My First Animal Fun Sticker Book : Over 250 Stickers!**

Once again thanks to the seller. This is a great learning tool and fun to do with a little one. Most of the stickers are words that she can not read.

### **My First Animal Fun Sticker Book by Julia Donaldson (2016, Trade Paperback) for sale online**

I received this book today, and it will probably end up the trash tomorrow.
