## Scientific Discourse in Sociohistorical Context

He had become the hub of a network of scientific correspondence Hall 2002, Bluhm 1960. Beyond the role it plays in academic gift giving and self-presentation, however, the textualization of gratitude reveals social and cultural characteristics, an intimation of disciplinary specialization within a broad generic structure. I am similarly grateful for the close reading of Chapter 2 provided by David Depew with the Project on Rhetoric of Inquiry.

## Late Modern English Medical Texts 1700

The PTRS published before 1880s is different from its succeeding series. An analysis of the thematic structure of a selected sample of these items shows that the thematic choices being made were similar to those established in the course of the following century.

## Books

Universal languages and scientific taxonomy in the seventeenth century. Opticks : or a treatise of the reflections, refractions, inflections and colours of light ... with a foreword by Albert Einstein a preface by I. We therefore had to work out several problem-solving strategies.

## Late Modern English Medical Texts 1700

The following decades in the 19th century saw a drastic drop in concreteness. However, the straight evolutionary line could have slight fluctuations caused by socio-cultural factors. In this case, there have been no databases on bibliometric factors regarding the PTRS.

## Medical news in England 1665

Philosophical Transactions 3 July 1665 34 It is difficult to tell whether this item has been written by Oldenburg or Boyle, or indeed whether the account is by Boyle with an introduction by Oldenburg. In fact, the direction of linguistic evolution in this journal was greatly influenced by external social-cultural factors.
