Yerah ha

In the Middle Bronze Age I the settlement was concentrated in the southern part of Bet Yerah.

Yerah ha

However, the most recent considerations of the latest stone fortifications, by Getzov 2006 and by Greenberg et al. It houses courses for soldiers after their discharge; a teachers' seminary, principally for students hailing from Middle Eastern countries who intend to teach in immigrant villages and development towns; and a field school of the Society for the Preservation of Nature. Here, where the Jordan now flows, the city lacked natural defenses in ancient times.

Yerah ha

. Early excavators reported Roman remains, but virtually nothing of this period can be identified in the remaining collections. Haines, A Byzantine Church at Kirbat Al-Karak, 1960.

Shahar, David 1926

A large rectangular fort built of dressed masonry with towers at its corners was constructed on the northern part of the tell in the third century C. Shahar, David 1926

After the Bar Kokhba war, priests of the Haaziah family settled there. The main concentrations of houses were built away from the massive earlier remains, which were used for refuse disposal and possibly for crafts such as potting a large pit with kiln fragments was excavated in the Early

Bronze Age Circles Building in 2009.

Yerah ha

Bet Yerah was resettled in the seventh century after having been destroyed during the Persian or Arab invasion, but it was abandoned shortly afterward and reoccupied only in recent years. Substantial Hellenistic remains have been found, by several excavators, in virtually every part of the mound Plan 1.
