

# Biosynthesis and its control in plants - proceedings of the Phytochemical Society Symposium, University of Kent at Canterbury and Sittingbourne Laboratories, Shell Research Limited, Sittingbourne, Kent, March 1972.

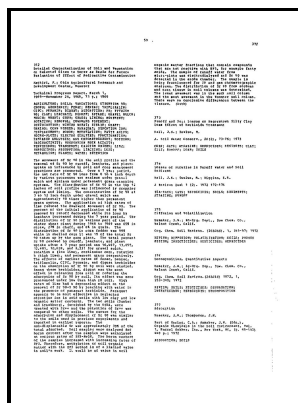

Academic Press - Biosynthesis and its control in plants;: Proceedings of the Phytochemical Society Symposium, University of Kent at Canterbury and Sittingbourne ... proceedings of the Phytochemical Society): MILBORROW, B.V. ed.: 9780124961500: localize-img.justmote.me: Books

Description: -

-  
Plants -- Metabolism -- Congresses.  
Botanical chemistry -- Congresses.  
Biosynthesis -- Congresses. Biosynthesis and its control in plants - proceedings of the Phytochemical Society Symposium, University of Kent at Canterbury and Sittingbourne Laboratories, Shell Research Limited, Sittingbourne, Kent, March 1972.

-  
Les Guides bleus  
no. 9.  
Annual proceedings of the Phytochemical Society of Europe ;  
no. 9  
Annual proceedings of the Phytochemical Society, Biosynthesis and its control in plants - proceedings of the Phytochemical Society Symposium, University of Kent at Canterbury and Sittingbourne Laboratories, Shell Research Limited, Sittingbourne, Kent, March 1972.

Notes: Includes bibliographies.  
This edition was published in 1973

Nucleic acid metabolism in biotrophic infections by J. Hemming by Phytochemical Group Book 3 editions published in 1974 in English and held by 332 WorldCat member libraries worldwide Introductory address; Some characteristics of a primary carboxylating mechanism; The relationship between gluconeogenesis and carbohydrate oxidation in higher plants; Plant polyols; Some aspects of sucrose metabolism; The nature and function of higher plant galactosidases; The structure and function of plant glycolipids; Some aspects of the enzymic degradation of starch; Starch metabolism: synthesis versus degradation pathways; The primary cell wall and central control of elongation growth; Sites of synthesis of the polysaccharides of the cell wall; The relation of plant enzyme-catalysed B- 1,4 -glucan synthesis to cellulose biosynthesis in vivo; Biosynthesis of pectin and hemicelluloses. Pennock -- Sesquiterpenes and their biogenesis in myoporum deserti A.
