## List of poetry anthologies

I am familiar with some of the poems of Pablo Neruda particularly those that were included in the movie *Il Postino* but I am expecting many members to get from those.

## The Cloud by Percy Bysshe Shelley

Vendler is an extraordinarily sensitive and penetrating reader try her volumes on Shakespeare's sonnets, Keats' odes, or her selection from Emily Dickinson if you think I am exaggerating. I was blown away by the sections on the body, and women's self image-some achingly poignant. ## 1989 in poetry
