## NRLS

One of the primary reasons many skeptics about EMR health effects, such as ICNIRP, use to dismiss studies that show statistically significant effects and even dose-response relationships, is their claim of the lack of a plausible biological mechanism. LaRS currently provides support to the front line response by coordinating services at the regional and local level. In addition, research on detecting radiological sources and mitigating the effects of radiation is a priority for the department's Science and Technology Directorate.

## Fetal doses from radiological examinations

Congress should address the shortfall in federal expertise in emergency medical services by moving Emergency Medical Services Division functions to HHS and establishing an Institute for Emergency Medicine within the National Institutes of Health that is dedicated to spearheading emergency medical research efforts.

## Guidelines on Radiology Standards for Primary Dental Care: Report

Radiological monitors can identify contaminated food supplies and detect dispersal devices. Potentially, in addition to professional responders and volunteers, there are about 6. Henry Kelly, President, Federation of American Scientists, testimony before the Committee on Foreign Relations, U.

## Health Protection Agency

For example, in September 2002, U. Conclusion A clearer understanding of the dirty bomb threat will ensure that policymakers are prepared to coordinate public, private-sector, and governmental responses to a dirty bomb attack.

## Guidance Notes for the Protection of Persons Against Ionising Radiations ...

However, like most threats, the highest risks are also the least likely. They were then referred to a Radiation Protection Advisor for an estimation of the fetal dose.

## NRLS

In April 1994, CAMR moved from PHLS centre to the Microbiological Research Authority MRA , reporting to the Department of Health and still continuing the programme in civil microbiological research started in 1979.

### **National Radiological Protection Board (NRPB)**

In fact, current assessments of preparedness are based on voluntary surveys and needs assessments.
