### Guideline: Standards of physical therapy practice

**Higher Education Rankings** In the context of Quality Assurance, there is also increasing use of ranking of Higher Educational Institutes HEIs worldwide. A range of measures are employed within the countries of the European Region to carry out Quality Assurance within Higher Education Institutes as indicated by several surveys performed by the Education Matters Working Group over the years including 2010, 2012, 2014 Report on Quality Assurance 2014.

### Guideline: Standards of physical therapy practice

As a result, a Discussion Paper has been created in collaboration with the U of S School of Rehabilitation Sciences MPT Program, and specifically the MPT Clinical Education Team. An overview of the responses is presented in Table 1.

### Audit and Re

**About the Credentialling Process** For internationally-educated physiotherapists, credentialling is the process of evaluating documentary evidence to determine if your qualifications are not substantially different from Canadian entry-to-practice standards. We publish these in separate documents, which you can find on our website. Quality Assurance QA covers both internal and external procedures, systems and structures and the Quality Assurance procedures were initiated in order to move towards greater internationalisation.

### Europe Region WorldPhysio

This enhances the necessary transparency between the HEIs. Documentation in patient records has shown important improvements as a result of the new standards.
