The policy includes sections relating to community forests, private forests, forest economy, bioprospecting, and wildlife. .

Land

A number of conservation plans have been developed and implemented on private lands. The 2001 SALWACO Act permits SALWACO to extract water from surface and groundwater sources in order to provide water services to the population.

The logic of fodder legumes in Africa

The Susu, Limba, and Koranko were generally associated with the northern regions, the Temne in the central and western region, the Kono in the central eastern region, and the Mende in the south. In most cases, at least one member of the leasing group is from the community Unruh and Turay 2006.

Land Use

It will also be important to support the establishment of civil society monitoring as well as institutions that would add transparency and accountability in government operations regarding these resources. The timber industry does not figure prominently in the national economy, and official statistics often do not indicate any timber exports. Eighty percent of the rural population obtains its water from surface sources, including streams and ponds.

Land Use, Land Cover, and Trends in Sierra Leone

The Creole and Sherbro primarily inhabited coastal regions. See thisÂ Â for your municipality to adopt in opposition of these bills. There is no indication that either draft law has been enacted Unruh and Turay 2006.

Land Use, Land Cover, and Trends in Sierra Leone

Objectives addressed in the policy include: 1 to regulate the use of water and ensure that it is managed to meet the needs of socioeconomic development and the needs of the environment in a sustainable manner; 2 to review existing laws on grant of water rights, pollution control, catchment management, and conflict resolution; and 3 to establish a Water Resources Council to regulate and manage the utilization of the water resources for socioeconomic development and sustainability of the environment at national, river basin, district, community, and international levels. Address the gender discrimination that seems to be inherent in traditional governance structures at the local level and contributing both to economic injustice and to a generation gap — with youth no longer willing to accept customary rules and the imposition of customary authority regarding marriage, labor allocation, and economic opportunities.
