## Livingstone's 1871 Field Diary

Horrified by the experience, he now decided to retreat to Ujiji where he planned to recuperate. The year 1869 began with Livingstone finding himself extremely ill while in the jungle.

### Dr. Livingstone, I Presume? — Clare Pettitt

His own harsh judgment of himself was that he had failed to make sufficient discoveries or to convert Africans to Christianity in the numbers he had hoped. He was not only an explorer and geographer, but an anthropologist, botanist, ethnologist and a medical missionary.

He then turned around and walked across Africa to Mozambique. This book shows how urgently a handshake between a Briton and an American was needed to heal the rift between the two countries after the American Civil War. By July 31 the 930 miles 1,500 km of the lake perimeter was charted.

## Livingstone and His African Journeys by Huxley Elspeth

Did it feed the Nile as Livingstone hoped or was it part of the Congo River system as Livingstone feared? On the page in brown ink, Livingstone records local cultural and geographical information, much of it collected from African informants. With Oswell, Livingstone reached the river in August 1851 and felt confirmed that this was the very highway he was looking for. During his time with the BaKwena, Livingstone began to make journeys to the north, partly to improve his skills in the Setswana language and partly to look for sites for new mission stations.
