**Fundamentals of the I Ching**

It deserves praise for the whole which cannot be named. But the meaning in the verses can take much, much longer to consider. It is the ornament of all things, yet it claimeth not fief of them; there is nothing so small that it inhabiteth not, and informeth it.

**Michael Lafargue**

English and Mandarin Chinese Edition.

**Taoismus**

Quand ses mérites sont accomplis, il ne se les attribue point.

**Strategic Sages and Cosmic Generals: A Daoist Perspective on the Intertextuality of the Daodejing and the Sunzi**

All things return to their root and disappear, and do not know that it is it which presides over their doing so. Berkeley: Society for the Study of Early China; Institute of East Asian Studies, University of California, Berkeley. According to Lawrence Durrell, Taoism is such a privileged brand of eastern philosophy that one would be right to regard it as an aesthetic view of the universe rather than a purely institutional one.

**Taoismus**

Each verse requires thought and meditation and changes in you before going on to the next one. This item may not come with CDs or additional parts including access codes for textbooks.

**The Tao that can be told is not the true Tao**

It involves notions of trust, watching out for ego desires, and settling into quiet but active attention. When someone exerts their will against the world, they disrupt that harmony. Foreword by Lama Surya Das.
