تجزیه و تحلیل تأثیر نوع سیستم ارزی بر تقاضا و ترکیب نخبه ارزی کشورهای در حال توسعه (2004)

However, the eclectic theory provides no clear indication as to the relationship between trade and FDI flows. Introduction Foreign direct investment FDI is a vital ingredient in achieving sustained growth of any nation, including Ghana.

تجزیه و تحلیل تأثیر نوع سیستم ارزی بر تقاضا و ترکیب نخبه ارزی کشورهای در حال توسعه (2004)

The results also show that log of GDP which has a positive and significant impact on FDI. A number of domestic factors are important in attracting FDI to an economy.

Analysis of the determinants of foreign direct investment in Ghana

With this, FDI occurs in the latter two stages i. This can be done through heavy investments in the economy.

تجزیه و تحلیل تأثیر نوع سیستم ارزی بر تقاضا و ترکیب نخبه ارزی کشورهای در حال توسعه (2004)

Therefore, this study contributes to the literature by exploring the effects of telephone subscriptions and electricity production on FDI which has not been dealt with in Ghana using a different methodology ARDL to study the relationship between FDI and other macroeconomic variables to give clear picture of their relationships and to suggest some of the possible ways of dealing with these variables in order to attract more FDI for the country to achieve its goal is what this paper seeks to do.

تجزیه و تحلیل تأثیر نوع سیستم ارزی بر تقاضا و ترکیب نخبه ارزی کشورهای در حال توسعه (2004)

This is because exports are replaced by closer production in the host country market. This is consistent with the long-run result. The ADF test procedure tests the null hypothesis that the variables have unit root or are non-stationary as against the alternative hypothesis that the variables are stationary.
