Flight Review: Widerøe's Explore Norway Pass: Land of the Midnight Sun!

Rio de Janeiro, Brazil SDU Santos Dumont airport in Rio de Janeiro provides great views on landing for both pilots and passengers —. Another ideal site for seal-watching is Granton Harbour, Edinburgh.

FISMA Implementation Project

Aircraft primarily take-off and land facing into the prevailing winds. They now thrive in our cities, nesting on tower blocks and other structures — using them like the cliffs they would use in a non-urban setting. This flight was one of the longer sectors on this trip, at 40 minutes long.

Flight Review: Widerøe's Explore Norway Pass: Land of the Midnight Sun!

While we were enroute to Vadsø the time ticked over to midnight — we were officially under the midnight sun.

Part 12—Northerly Island Airport (Meigs Field)

Come summer the foliage is so high they are virtually invisible. Rather than dying, the trees will coppice and produce lots of fresh, new shoots. But, as Bill Simpson, who runs fishing and wildlife charters from the harbour, points out, the wildlife was all there even when the pontoons were gone.

Cairn Toul from northerly approach to Ben Macdui

In the Northern Hemisphere, as you accelerate, your compass will show a turn to the North. First airplanes began arriving at the island air field about 7:30 yesterday morning, a time when the sky was overcast and the temperatures well below freezing. Application for approval of the airport and of the enlargement of the islands have been made to the Federal government and the State of Illinois.
