The top stroke of the letter 'a' is open, which is not a characteristic of true Textura Quatrata.

NOVA

The hand is rounder and more fluid, but still employs tall ascenders, some of which 'H' and 'L' have hooks at the top. Further more please it your masterships to understand that. It is this proto-Sinaitic alphabet that really marks the starting point, the root of numerous modern-day alphabets, from Arabic and Hebrew to Greek and Latin.

New

Putting the pieces together Writing and alphabets evolve for a number of reasons. The writing on paper money is all in the new Latin alphabet; vehicle license plates appear to be issued in Cyrillic or Latin letters at random; buses advertise their destinations sometimes in Cyrillic, sometimes in Latin, sometimes in both alphabets. But you must learn to recognize the most common genealogical scripts and prints.
