## American Indians and their Environment

In what was probably the worst industrial disaster of all time, a noxious gas leak from a Union Carbide pesticide plant in Bhopal, the capital of Madhya Pradesh, killed more than 1,500 people and injured tens of thousands of others in December 1985. Total area excludes disputed territories not under Indian control.

### IDEM: IDEM

But the amount of waste generated is not as much of an issue as the fact that over 45 million tonnes or 3 million trucks worth of garbage is untreated and disposed of by municipal authorities each year in an unhygienic manner. Majority of it are broad-leaved trees which comprise one-sixth and one-tenth.

### American Indian Environmental Office (AIEO)

Along with other species, India has the most species of cats than any other country. In addition to this act, the government passed the and Foreign Trade Development and Regulation Act 1992 for control of biodiversity. Risk is scored on a 0.

### IDEM: IDEM

Its cumulative grid interactive or grid tied capacity excluding large hydro has reached 33.

### American Indian Environmental Office (AIEO)

Other sources of pollution include and unregulated small scale industry. In 1985 there were 20 national parks and more than 200 wildlife sanctuaries. The Native Americans used natural resources in every aspect of their lives.
