Europe, 1880

So, European history is a distinguishable and meaningful topic in these years.

Europe, 1880

The calorific difference between what is eaten in the richer countries of the northern hemisphere and what is eaten in much of Asia and Africa is now a commonplace, but was already becoming visible in 1880.

Europe, 1880

In 1880, some of its greatest successes in diffusing its institutions and ideas were still to come. Europe 1880-1945 is the classic survey of the period.

Europe, 1880

It reached its greatest coherence and strength before 1914 and may be distinguished from others by the emphasis it placed on the individual, by its increasing separation of social and political institutions, by its material wellbeing, and by its growing rationality. All we need do here is to remark that by 1914 it had carried the control of violence and unreason in national and international life further than ever before, and brought Europeans to a previously unmatched level of material and mental achievement.

Europe, 1880

Not always easy to read because it is a real shock to learn that the extermination of the Jews has not begun with The Nazis but long before and in the most horrific ways. South and southeast Europe, for example, was still covered with primitive peasant industries.

Europe 1880

Why did it not go down? It is difficult not to infer that they grew to suffer deprivations more impatiently and to believe more strongly that earthly

happiness was attainable. Three principalities, Serbia, Montenegro and Rumania, obtained their formal independence at the Congress of Berlin, where each was bound to maintain certain constitutional safeguards.
