## A Causal Inference Model Explains Perception of the McGurk Effect and Other Incongruent Audiovisual Speech

At this time, we seek preliminary draft proposals from prospective bidders in relevant regions.

### Computational Linguistics lab

Absences must be cleared with the professors in advance of the class being missed.

### Computational model decodes speech by predicting it

Although this model is a Bayesian causal inference model, it has only superficial similarity to the current model. Proceedings of the American Philosophical Society 105:5, 470-486.

### A computational approach to understanding how infants perceive language

Beauchamp MS, Nath AR, Pasalar S. Meanwhile, conglomerate publishers struggled with their budgets in the wake of the financial crisis.
