It Lives In The Woods

This article was co-authored by. Just want some free food. Separating the valleys are strings of mountains, now weather-worn and bald-topped like old men.

Mountain man Mick Dodge loves the wild but isn't a 'wild man' (CORRECTED)

In Hindu philosophy, everyone ideally matures into a kind of hermit, and today at least four million people live as wandering holy men in India, surviving off the charity of strangers, having renounced all familial and material attachments.

Into the woods: how one man survived alone in the wilderness for 27 years

So I guess I'll just look into other works by the same author, and hope that this might get a follow up.

9 Different Animals That Live in the Forest

And I think that yes, it is a middlegrade novel, but it doesn't feel that way.

9 Different Animals That Live in the Forest

I love her writing style and how easy the words flow together.
