Decision

Keep asking questions until you have all the information you need to make decisions. This is more comfortable than a tube down the throat and may not require sedation. In other words, if the minority opposes the course of action, consensus requires that the course of action be modified to remove objectionable features.

Depression and Indecision: Trouble Making Decisions

People with depression both avoid decision-making and tend to be slower when making decisions. The ICD should be turned off at the point when life support is no longer wanted.

DynaMed Shared Decisions

Common End-of-Life Concerns Maybe you are now faced with making end-of-life choices for someone close to you. Extinction by instinct is the state that a person is in when they make careless decisions without detailed planning or thorough systematic processes.

Decision

Tacit knowledge is often used to fill the gaps in complex decision making processes. Toddlers and infants, ranging from 9—21 months, understand basic principles of equality.
