### Lenin's Conception of Socialism

After a long banishment, Marx is returning to mainstream political discourse, as a new generation discovers that many of his observations about the predatory logic of capitalism still hold startlingly true.

### Iskolata republika

For a few brief months, Russia became one of the freest countries in the world. Bruce Lincoln, *Red Victory: A History of the Russian Civil War*.

### Iskolata republika

During the Civil War 1917—21, the Bolsheviks adopted war communism, which entailed the breakup of the landed estates and the forcible seizure of agricultural surpluses. Although formal German recognition was secured in March, real independence was not achieved until the German collapse in the west in November.

### Iskolat

In 1922, the communists Reds were victorious, forming the Soviet Union with the unification of the Russian, Transcaucasian, Ukrainian, and Byelorussian republics. In Russia itself, the Red Army, led by Trotsky, eventually defeated the counterrevolution, but only at a huge human and material cost.

### Latvian Riflemen

As the title implies, the coverage goes past just the Red vs White struggle, and it is a perfectly acceptable introduction.
