But any numbering set to display in the header or footer will continue to display in the header or footer area on subsequent pages regardless of those settings. These elements are displayed in both directions from the page where you are viewing them.

WordPerfect Tips : KiMformation

□ Be aware that since are actually a pair of codes see Step 1 below , this hide-a-code method will only hide the first code and not the second code of the pair. There are lots of books on Computers and Internet book and in the other categories.

Alan Simpson

The template that spawns your new, blank documents is normally the default template, but could be -- and here, probably should be -- a custom template.

DDC Publishing, Learning Corel WordPerfect STE 8

Also see for how to modify it so it becomes the default for future documents.
