A Global Perspective on Private Higher Education

In short, higher education institutions prepare individuals not only by providing them with adequate and relevant job skills, but also by preparing them to be active members of their communities and societies. This massive growth is expected to continue, making higher education a critical public policy issue.

Digital higher education

Transformation of the NCAA In the coming decade, large universities with big sports programs will pay their players, and application of antitrust laws will lead to robust wage competition. Community colleges, however, receive nearly half of their revenue from government appropriations, the majority of which come from state governments.

Quality of Education

They concluded that the most important factor in PISA test performance is how resources are used: countries that prioritized the quality of teachers over class sizes performed much better.

Racism, Civil Rights and the Struggle for Equality Still Issues in Higher Education Today

The focus of the UNESCO 3rd World Conference on Higher Education 2020 will be on universities as communities of lifelong learning. A new movement entered the scene at universities as students took to action in support of, protesting jury verdicts that failed to indict in the murders of unarmed black youth and black men.

Seven Challenges Facing Higher Education

A Focus on Performance Unlike the typical US performance-based funding models, performance-based funding models in Finland and Australia account for a broader range of outcomes.
