## The Gothic Cathedral: Origins of Gothic Architecture and the Medieval Concept of Order

This style was significantly different from the preceding Romanesque style. Because a cathedral nave flooded with light would have a dramatic effect on the faithful, vast window space became a necessary characteristic of the Gothic style and responded to one of the goals of a growing and dominant religion in the medieval era. Note the ribbed vaulting and pointed arches.

### The Gothic Cathedral

In the 1940s, the prominent art-historian claimed that the theology of influenced the architectural style of the abbey of St. But it does reflect the significance of the great project for all those whose contributions made its realization possible. This transformation took place over the course of little less than a century and began in the Ile-de-France Parisian region , where the desire to build very high naves resulted in close attention to the technical and formal aspects of construction.

When the succession went to Philip VI 1293-1350 of the French House of Valois, it triggered the start of the Hundred Years War 1337 , which led to a reduction in religious architecture and an increase in the construction of military and civil buildings, both royal and public. Notre-Dame was constructed on the ruins of two earlier churches. For an overview of arts and crafts during the Middle Ages, please see: c.
