## Edward I of England

However, in this case the emphasis should not be placed on what is generally accepted about Arthur — that there is little if any concrete evidence for his historical existence — but what was believed in the past.

## 1216

In the 13th century, the sea came much further inland to the outer wall, which ran around the base of the outcrop, allowing the castle to be resupplied by boat during a siege. During the days of its prosperity, however, lead- mining was one of the more important of English industries.
