Existence and Predication: the 'Is' Ambiguity Thesis

This is what we mean in speaking of them as intersubjectively realizable capacities. The fourth kind is which is the most perfect, namely, which has existence in nature without any admixture of privation, and has firm and solid existence, as it exists by itself, as do substances.

Existence and Predication: the 'Is' Ambiguity Thesis

If 'Barack Obama exists' failed to express a proposition, then 'Malia Obama exists' would fail to express a proposition also.

The Phyre2 web portal for protein modeling, prediction and analysis Kelley LA et al. Nature Protocols 10, 845

But the same distinction is considered even earlier by St. First I shall report some of the results of the linguistic analysis of the Greek verb which I have published elsewhere.

Prediction Interval, the wider sister of Confidence Interval

This does not follow, for 'in unhealthy places' signifies a part in place.
