How to Draw Eyes (with Pictures)

Metalworking process Drawing is a process which uses forces to stretch , , or plastic. Depending on whether your expertise is anime, realism, comics, doll eyes, or even just doodle, use this article as a general guide.

Ignition Drawing

Start by pressing firmly with your pencil then slowly release the pressure as you curve it towards the tip.

4 Ways to Draw a Star

Drawing is usually done at room temperature, thus classified a process, however it may be performed at elevated temperatures to large wires, rods or hollow sections in order to reduce forces. It will take a bit of practice to get a good handle on drawing eyes.
