Reconstruction of the Aceh Region following the 2004 Indian Ocean tsunami disaster: A transportation perspective

Table 3 — On- and Offshore wind considered in the Visions in RGNS countries GW 2020 Vision 1 Vision 2 Vision 3 Vision 4 Offshore wind 24.
A subsequent DRD technical mission helped the Dominican Government design a cadastral survey and initiate an agricultural land-taxation system that would start with the districts with the most production and revenue-producing potential.

Case study 1

When the DRD first began working in the Dominican Republic in 1964, the country was socially and economically stagnant, and economic development and natural resource issues were addressed only when crises occurred. The third study, conceived as a subregional study of the eastern Cibao but expanded into a regional study of the entire Cibao, was launched in 1977 to complement the second study and provide a planning base for developing the northern part of the country. Plan de Acción para el Desarrollo de la Línea Noroeste.

Integrated Development

Taller Regional sobre Manejo de Cuencas Hidrográficas y Areas Silvestres. Consequently, the power flows have changed.

Connecting the fragmented habitat of endangered mammals in the landscape of Riau

The choice has to be made at a political level concerning which future the region should aim for. This framework will ensure co-ordination, consultation and alignment between the district council and local municipalities.

Case study 1

A shift from coal to gas powered thermal generation. On steep terrain: forestry mahogany, capá, oak, eucalyptus Subtropical Wet Forest 26.

Annual reports : Christchurch City Council

It prepared a preliminary version of the agreement between OAS and the government that stipulated the products and management structure of the study, the nature and timing of the principal phases, and the parties' contributions and responsibilities. Análisis de las Políticas y Realizaciones en Reforma Agraria en la República Dominicana, XII Reunión de Ejecutivos de Reforma Agraria del Istmo Centroamericano y la República Dominicana. Besides preparing the action plan, the study team in Santo Domingo investigated pilot forestry, water-conservation, and soil-conservation projects in the region.

National Programmes

The report outlines our overall financial position and performance as measured against financial key performance indicators.
