There is general agreement, however, that testing to see whether individuals have standard skills is about the best we can do. Some of the funding for an organization or coalition may come earmarked for a conference, or organizing a conference may be a condition of funding for your work. Policy Approaches States have also seized the opportunity to promote the inclusion of people with disabilities in the workforce through a wide variety of policy approaches—both indirectly, by encouraging their employment in the private sector, and directly, through their own employment practices.
