## summary of returns, Lincolnshire parishes

Moon of Golant, and Nich. Lord in 1086: Richard son of Turolf.

## Analysis of Bishop Compton's census of 1676: Ongar Hundred

In 1522 he ordered a survey both spiritual and temporal , also with a military muster which was the supposed reason for the survey.

## Crompton, Lancashire

Problems with estimating population totals from the Hearth Tax and Compton Census sources The main problem with using Hearth Tax and Compton Census data to estimate population totals is the uncertainty regarding how to convert the numbers reported in each source to numbers of individuals.

## Census of Anglican conformists, Dissenters and Roman Catholics (2530)

Bailey, 'Paper Read at Syerston. . . , 1900', Transactions of the Thoroton Society, 4 1900 ; Nottinghamshire Guardian, 19 September 1896, p. Irish Population down by 1. His two sons Robert and John founded the fortunes of the Fowey Rashleighs and their pedigree has been well documented.

## Compton Census

Pre 1841 UK population censuses exist I promise. The figures are too large to be households and too small to be total no of inhabitants.

## Compton census (1676)

It measures within from the east wall to the door of the at the base of the tower, just under sixty-seven and a half feet; and from the south to the north wall nearly fifteen feet. In general the figures obtained in the census must be treated with caution since the returns were made by individual incumbents, curates or churchwardens and edited locally.

## **GENUKI: Norfolk Church Records, Norfolk**

The unit reported is therefore the household, and the usual practice is to multiply the number of households reported by a fixed multiplier representing average household size usually 4. Local Population Studies Number 51 Autumn 1993 include: Charles Pythian-Adams, Claire Jarvis, David Postles, Brian Short, Regular features: Editorial, news, recent publications, correspondence, etc. These would have given some indication of the times of church services and perhaps also acted as a village timepiece, before clocks came into general use.

### **Compton census (1676)**

These estimates will then be used to test whether we can model the relationship between geographical variables and household size with adequate precision and at a sufficiently disaggregated level, for the counties where we already have Hearth Tax data. Upon his death in 1850 the estate passed to his only son, George 1809—1856 , who enjoyed only a short tenure before being succeeded by his son George Henry Fillingham 1841—95 in 1856.
