## Theatre

The lavish, and in some cases extremely magnificent, costumes always respected the relationships among the characters being portrayed. His landscapes and oriental-style porticos demonstrate an early Romantic sensitivity that was also prefigured in the medieval castles featured in Richard Coeur de Lion 1784 by Michel-Jean Sédaine.

## Renaissance

In both the Frankfurt Schauspielhaus 1963 by Otto Apel, Gilbert Becker b 1925 and Hansgeorg Beckert b 1927 and the Théâtre National de la Colline 1988 in Paris by Valentin Fabre, Jean Perrottet and Alberto Cattani, the whole arch is eliminated so that the stage is open to the auditorium across its entire width.

## Theatre

The orchestra is circular, and open passages divide the theatron from the skene. Der Vertrag kommt unter der aufschiebenden Bedingung zustande, dass Ihr Gebot zum Zeitpunkt des Ablaufs der Angebotsdauer das Höchstgebot ist.

## Wanderbühne

A truncated ellipse was used for the auditorium plan. As theatre developed, the orchestra—the place for music and dancing—remained its nuclear centre, and as a result the term is applied today to that part of a theatre where the musicians play, or to the musicians themselves.
