### Cops still to locate suspect in fatal harbour bridge shooting

The notice that greeted the public at the New Amsterdam stelling The boat must work full time for everybody. In addition to these projects, there are several access roads earmarked for financing by SIMAP and the Futures Funds. The road maintenance fund, a mechanism for financing the annual road maintenance programme is to be launched during 1996.

### Fort Wellington crash leaves three dead, three injured

There is an urgent need to construct a road passing through the hinterland to link Lethem with Georgetown. The incident claimed the lives of 18 inmates. The funds are inadequate to allow for the Division to grapple with this gigantic task successfully.

### OP

To date, ferry services have received a cross-subsidy financed by other revenues collected by the Transport and Harbours Department. He noted that Guyanese are concerned by the numerous unanswered questions surrounding the exploitation of this resource and the possible challenges that the nation will encounter along this developmental path and that the symposium was a forum in which Guyanese nationals and other interested parties of all backgrounds could participate in a forward-looking conversation to position Guyanese at home and in the diaspora to take advantage of the emerging oil and gas opportunities.

### Georgetown traffic news for today

The magnitude of the investment needed in the road transport subsector is overwhelming. Basic Features of the Sector The transport sector consists of a totality of physical facilities, terminals, fleets and ancillary equipment of all the various modes of transport operating in Guyana.

### Berbice River water taxi operations scaled back for bus operators

Regulatory Framework The regulatory functions of the Road Administration Division RAD of the Ministry of Public Works, Communications, and Regional Development, are not being enforced.

### **Cops still to locate suspect in fatal harbour bridge shooting**

This project has widespread support among the Berbicians, and the Berbice Chamber of Commerce and Development Association has been lobbying for it. They provide Pilotage services to international vessels in and out of port Georgetown and New Amsterdam. Better fencing is needed as the facilities have been vandalised frequently.

### **OP**

Kisten said that he is open to accept any assistance from persons for the funeral. These services still suffer from deficiencies that need to be corrected. The injured Mangal, according to his son, worked in the interior and was travelling back to his work site when the accident happened.
