### Rural Culture

All these challenges contribute to special problems in rural areas. There is little variation among those living in different types of communities in the share reporting they have social support, feel optimistic about their lives or feel lonely. All means of production and resources are owned collectively.

The importance of true Indian culture can be found only in the Indian villages. Excessive use of these inputs contributes to the loss of agrobiodiversity, soil organic matter, and increased greenhouse gases.

### Social Structure of Indian Society

In addition, although there are areas where large estates, concentrations of ownership, or large-scale state or collective units may be found, farming generally is characterized by small units of operation, with the management and worker roles combined in the farmer and with the work performed primarily by the farmer and members of his family; so the ratio of independent to other workers is in sharp contrast to that in the nonagricultural pursuits. It is an approach that draws interpretations from psychiatry and psychoanalysis to see how individuals relate and interact with the socio-cultural context. Lower class persons may be more likely to have hostile attitudes toward city officials and to vandalize businesses C.

### NCERT Solutions for Class 11 Sociology Chapter 2 Social Change and Social Order in Rural and Urban Society

Living among politically like-minded people is not a top priority for most Americans: Only one-in-ten or fewer in urban 10%, suburban 8% and rural 6% communities say it is very important to them personally to live in a community where most people share their political views. The manifestation of poverty goes beyond the urban-rural divide, it has subregional and regional contexts. Such communities also have their own parallel civic facilities, such as water and electricity supply, policing and security.
