SOSORT consensus paper: school

screening for scoliosis. Where are we today?

He is immediate Past President of the International Cannabinoid Research Society ICRS; 2019-2020 and Past President of the Irish Pain Society 2015 - 2017. Pollak D, Floman Y: Late hematogenous infection: A constant threat to total joint replacement.

Richard J. Bonnie

Floman Y: Platelet aggregation abnormalities in adolescent idiopathic scoliosis.

Previous Conferences

Journal Of Neuroimmunology, 276 1-2 :126-134 2014 'Stress-induced hyperalgesia' Jennings EM, Okine BN, Roche M, Finn DP 2014 'Stress-induced hyperalgesia'.

Richard J. Bonnie

Floman Y, Floman N, Zor U: Inhibition of prostaglandin E release by anti-inflammatory steroids.

Yizhar Floman, MD

The objectives were numerous, 1 the inclusion of the existing information on the issue, 2 the analysis and discussion of the responses by the meeting attendees to the twenty six questions of the questionnaire, 3 the impact of screening on frequency of surgical treatment and of its discontinuation, 4 the reasons why these programs must be continued, 5 the evolving aim of School Screening for Scoliosis and 6 recommendations for improvement of the procedure. Dynamic Chiropractic 15 23 :15-32, 1997.

Amy Pittenger, PharmD, MS, PhD
