## Mekong region and Korea

This paper makes the case for how we get there.

**Eric Y.J. LEE**

The hydropower development narrative The formulation of development and management strategies involves the distillation of often highly complex issues into manageable problems. Moreover, many governments do not clearly signal how and to what extent they promote the green transition. This collection of images illustrates the progress and challenges of 20 years of work in the Greater Mekong Subregion.

## The Mekong River Basic Development : The Realities and Prospects of Korea's Participation

· A brief discussion of knowledge sharing and capacity building challenges and solutions.

## Bibliography : Environmental Regimes in Asian Subregions

Yet, agriculture remains the major driver of deforestation globally, and agricultural, forestry and land policies are often at odds. The Mekong lands have links or membership in booming Asean. The analysis relies on a modelling of land-sector development trajectories optimizing least-cost pathways, a bottom-up assessment of mitigation potentials, and a correction of potentials for political feasibility.

## Economic Co-operation in the Greater Mekong Subregion, Asian

This book examines how large-scale projects are being proposed, justified, and built.

## MOFA: CHAIRMAN'S STATEMENT OF THE ASIA

A draft outline obtained here showed that the talks will centre on ways to strengthen the Mekong Six chambers, and how best to integrate them into the Asean chamber.

### **The hydropower myth**

The discourse has become a prominent international meta-discourse and is constantly reaffirmed by states, industries and environmentalists as a way of integrating environmental, social and development objectives. A good practice for diversity is defined as a system, organization or process that, over time and space, maintains, enhances and creates crop genetic diversity, and ensures its availability to and from farmers and other users. MLA Dosch, Jörn, and Oliver Hensengerth.
