### The Destruction of Pompeii—God's Revenge?

One fresco depicts a dog with a collar on a leash, possibly a reminder for customers to leash their pets. The lava and ash of a huge volcanic eruption, that happened two millennia ago, caught the inhabitants of that city.

### Run, sail, or hide? How to survive the destruction of Pompeii

It was only in the 1920s when the massive architecture of the heart of Cuicuilco first saw light of day from underneath the old lava flows. This is why the bodies archaeologists have found or the cavities they left behind show people were intact when they died. Observing the first volcanic activity from across the Bay of Naples from the volcano, approximately 29 kilometres 18 mi away, Pliny the Younger's uncle launched a rescue fleet and went himself to the rescue of a personal friend.

### Pompeii, Italy: Mount Vesuvius Eruption & Facts

But with Pompeii, we don't just have skeletal remains of those who died, we can actually see in great detail the unbelievable fear on their faces at the moment of death.

What emerged were emotionally moving casts of people in their last moments of life. To this day, the volcano that destroyed Pompeii is considered the most dangerous

The natural history of Pompeii 1. Many raised their hands to the gods, and even more believed that there were no gods any longer and that this was the one last unending night for the world ... I believed that I was perishing with the world, and the world with me, which was a great consolation for death. It had long been thought that the eruption was an August event based on one version of the letter but another version gives a date of the eruption as late as 23 November.

## **Pompeii**

The Forum Pompeii has been a popular tourist destination for over 250 years; it was on the. Upstream and downstream of the flow it was 300—360 °C 570—680 °F. While people began to repopulate the area and Cuicuilco experienced a mini renaissance of sorts, the grumbling volcano had other plans.
