Description of piezometer nests and water levels in the Rio Grande Valley near Albuquerque, Bernalillo County, New Mexico [microform] in SearchWorks catalog

Bullard ; prepared in cooperation with the New Mexico Environmental Improvement Division represents a specific, individual, material embodiment of a distinct intellectual or artistic creation found in. Each cross section is comprised of four piezometer nests and each nest is comprised of three piezometers completed at different depths. Water level altitudes in piezometers completed at different depths in a particular nest are about the same in all of the Rio Bravo nests and in the Montano 1 nest.
