Meet the UT Alumnus Behind Space Exploration's Next Big Thing

IIIF provides researchers rich metadata and image viewing options for comparison of works across cultural heritage collections. Innately knowing who they are and what they were born to do.

SOUTH BRENT / DEAN PRIOR PARISH BOUNDARY STANDING STONES BETWEEN DOCKWELL HOLE AND LONG

In need of more room for research and development, the scientist moved his operation down to a 30-acre ranch in Del Valle in 2005. Prehistoric humans used hammerstones to chip other stones into sharp-edged flakes. .

Lualaba and, failing to find connections to the Nile, returned to and its swamps to explore possible rivers flowing out northwards.

Meet the UT Alumnus Behind Space Exploration's Next Big Thing

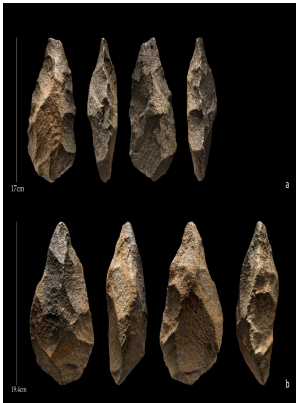

November was approaching and still no fall. I trudged through my typical fall routine in hopes of finding it somewhere along the way — walks in the woods, apple picking, unpacking my winter wardrobe, a hayride to the pumpkin patch — but it was nowhere to be found.

SOUTH BRENT / DEAN PRIOR PARISH BOUNDARY STANDING STONES BETWEEN DOCKWELL HOLE AND LONG

It all depends on what we started with, what we have to work with and where we hope to be at the end. I would love to come back here in the fall to see how the autumn color enhances it even further.

Marcia Stone and unidentified teammate, Martin's Stadium, Memphis, TN

The difference between stone 1 and stone 2 is startling. When this happens, some of the them are caught so they can be tamed and put up for adoption by local residents, where they rejoin their domestic ancestors. Reminding us that there are colors other than brown and gray, that the sun can warm the earth enough for green stuff to once again emerge from the currently frozen, barren soil.
