## The Project Gutenberg Works of Thomas Hardy

It had cylinders 14 in. Frichs of Aarhus was the supplier of both a 2-AA-1 450hp locomotive and a three-cylinder 2-8-0 steam locomotive for freight. Whether it was due to their being more accessible or whether it was the attractive, or might we say in many cases pretty, designs, we are unable to say, but had such favour been shown to some of the other lines the histories of our railways would have been far more complete.

## The Project Gutenberg Works of Thomas Hardy

Illustrations include Garratt descending 1 in 25 gradient with 900 ton train and Drewry Car Co.
