Possible solutions to eliminate criminal behavior

Undoubtedly, staff rely on punitive isolation as a way to interrupt or punish misbehavior, but evidence shows it is not an effective behavior management tool.

Possible solutions to eliminate criminal behavior

This respectful approach to communication about concerns becomes a model for all the youth about how to seek redress, and it creates real leadership opportunities for youth as an alternative to gang leadership. This is surely a mistake. Proper design of a facility can help prevent violence across all youth populations, and should be considered a critical element of the behavior management plan of a youth confinement facility.

Ch.14 Behavior Management

In short, punitive seclusion of youth is counterproductive as a behavior management tool in the juvenile confinement setting and its use should be firmly discouraged by child-serving agencies. According to Martinez, the consequences provided in a rewards-based behavior management system help deter negative behaviors, such as aggression and violence.

Study & Research What Encourages Gang Behavior?

When an individual is considering engaging in criminal activity, one of the first things they think about is the likelihood that said crime could be committed successfully. The state is working to move youth out of large, distant, state institutions with a correctional custodial feel and to instead situate them in homelike settings, with a therapeutic, youth-centered environment.
