responsible for such compliance, unless NEOGOV has agreed with you otherwise. Eligible programs include licensed center-based and family child care programs.

Consolidated Rail Infrastructure and Safety Improvements Program

Licensed center-based programs and family child care homes are automatically enrolled once licensed. When preparing the budget as part of the SOW, the total cost of a project must be based on the best available information as indicated in cited references that include engineering studies, studies of economic feasibility, environmental analyses, and information on the expected use of equipment or facilities.

School Facilities

This study used a conceptualization of coordination as a continuum of activities from simple communication and information sharing at the low end toward mutual responsibility and accountability at the high end. L2Q will use a portfolio to collect evidence to determine if participants have reached the benchmarks in each topic area.

California Governor

The DUNS number will be used throughout the grant life cycle. Based on data collected from states, districts, and teachers in 2004 and 2005, the report provides descriptive analyses of district and school implementation of the EETT program, focusing on issues that are central to the program distribution of funds; EETT district investment in educational technology; teacher and student access to technology; technology-related teacher professional development; and technology integration in teaching and learning. The safety of our staff, vendors, and the public at large is our top
