A related criticism that is sometimes made is that the argument overlooks the importance of the dialogue between the Court, the other branches, and the public at large that a Court decision can create.

The Hollow Hope

More specifically, McCann has directed attention to ways that a variety of political actors, acting through multiple governmental institutions and independently of them, have constructed legal norms from the bottom up, not only by complying from the top down with court decisions. Most

immediately, they will continue to provide useful perspectives for analyzing ongoing controversies involving rights of same-sex marriage. That award honors books and articles at least ten years old that have had lasting impressions in the field of law and courts.

Holdings: The hollow hope :

I know, he really wanted to make a case explaining gay marriage using his theory. For my response, see Rosenberg 1994. As I describe in chapter 6, by the end of 1972 there was growing public support for access to legal abortion, widespread support for it among relevant professional elites, little opposition to it on the federal level, successful reform in eighteen states, and large-scale use of it with nearly six hundred thousand legal abortions performed in 1972 alone.

The Hollow Hope: Can Courts Bring About Social Change? by Gerald N. Rosenberg

The Court, in a minor case, would have invalidated school segregation, much as it did in two cases upholding the 1964 Civil Rights Act *Heart of Atlanta Motel v.*
