**IOP Conference Series: Earth and Environmental Science, Volume 476, 2020**

The research carried out to study on the performance of the flat slab under the design load. FTIR results showed that the functional group in the samples corresponds well with existing literatures.

**Office of Research and Graduate Affairs: Emeritus Professors of the University**

It is an organic phenomenon that is permanent and has reached historical significance. Preventive maintenance in the form of an emulsified asphalt cold slurry micro-surfacing is considered superior to corrective maintenance — which is a reactive approach. Further south a cemetery was opened at Cornhill Cross in 1857, and at the same time Junction Road was laid out by John Davenport of Westwood Hall across Barnfields farm to link the Cheddleton and Newcastle roads.

**Archives West: A. Russell Mortensen papers, 1830**

The impact value and crushing value for fly ash-based geopolymer artificial aggregate are slightly higher compared to natural aggregate while the water absorption value is much higher compared to natural aggregate. He had moved to Compton by 1868.

**World Fibre Production**

Reprint in USP Diploma in Education Pacific History Reader, Suva, 1972.

**Aaron T. Beck Papers**

In 1766 the trustees ordered a gate and chain to be placed at the east end of Stockwell Street in Leek pending the building of a tollhouse.
