## Brierly's Law of Nations: An Introduction to the Role of International Law in International Relations by Andrew Clapham

The presence of a strong authority allows you to keep agreement and enforce sanctions for the violation of laws. I acknowledge no other natural society between nations than that which nature has established between mankind in general. The same maxim ought to regulate the conduct of states with regard to the treaties they conclude, and the customs they adopt.

### Brierly's law of nations : an introduction to the role of international law in international relations

The theory and findings presented in this book expose the secret underpinnings of the liberal international order and speak to longstanding debates about the conduct of foreign-imposed regime change as well as the impact of international law on state behavior. Since the object of the natural society established between all mankind is that they should lend each other mutual assistance in order to attain perfection themselves and to render their condition as perfect as possible,—and since nations, considered as so many free persons living together in a state of nature, are bound to cultivate human society with each other,—the object of the great society established by nature between all nations is also the interchange of mutual assistance for their own improvement and that of their condition.

international law

Concealing brazen violations of nonintervention helps states evade hypocrisy costs and avoid damaging their credibility. But the law of nature may suffice to regulate this commerce, and this correspondence. Providing a comprehensive overview of international law, this new version of the classic book retains the original qualities and is again essential reading for all those interested in learning what role the law plays in international affairs.

### **Brierly's Law of Nations: An Introduction to the Role of International Law...**

We must therefore know how to accommodate the application of it to different subjects; and it is the art of thus applying it with a precision founded on right reason, that renders the law of nations a distinct science. We must therefore apply to nations the rules of the law of nature, in order to discover what their obligations are, and what their rights: consequently the law of nations is originally no other than the law of nature applied to nations.

### **International law**

As a result of the notion of sovereignty, the value and authority of international law is dependent upon the voluntary participation of states in its formulation, observance, and enforcement.
