Interpretation: Commission Guidance Regarding Management's Discussion and Analysis of Financial Condition and Results of Operations; Release Nos. 33

Final Rule: Disclosure in Management's Discussion and Analysis About Off-Balance Sheet Arrangements and Aggregate Contractual Obligations, Release No. As the Concept Release states: The Commission has long recognized the need for a narrative explanation of the financial statements, because a numerical presentation and brief accompanying footnotes alone may be insufficient for an investor to judge the quality of earnings and the likelihood that past performance is indicative of future performance. The Company expects it will take at least 6 months to generate such replacement revenues.

Nikola Sets the Record Straight on False and Misleading Short Seller Report

Item 303 b 2 also states that companies subject to Rule 3-03 b of Regulation S-X providing statements of comprehensive income for the 12-month period ended as of the date of the most recent interim balance sheet must discuss material changes of that 12-month period as compared to the preceding fiscal year rather than the preceding period. Kurt Schacht, JD, CFA, is managing director for policy and regulatory relations at CFA Institute. To account for the required reconciliation in both Regulation G and Item 10 of Regulation S-K and Item 10 of Regulation S-B would result in double counting.

Other Observations including subsections 501.

Forward

We have estimated that public companies would be required to comply with the required submission on Form 8-K roughly four times a year. The Company is active in originating and syndicating loans in highly leveraged corporate transactions. Interim Period Reporting, consisting of section III.
