Hyde examines the balance of cultural and biological similarities and differences between the genders, noting how these characteristics are clear, comprehensive, and highly readable. Half the Human Experience presents a balanced perspective on multidisciplinary issues and provides an authoritative analysis of classical and current research from a feminist psychology viewpoint. The winner of many teaching awards, Hyde most recently received the James McKeen Cattell Award from the Association for Psychological Science APS for lifetime contributions to the applications of psychology.

**Half the Human Experience**

It gave the history of women's rights and how stereotypes and social norms affect our view of self and how women have worked together over the years to effect change cross culturally. Else-Quest and Janet Shibley Hyde examine the cultural and biological similarities and differences between genders, noting how they are often a result of inequality.
