Every station occupied is described, whenever possible, with sufficient detail to permit its ready recovery. These telescopes and various upgraded replacements continued operating at Mawson until 1972 when a new laboratory was constructed at the station that incorporated underground observations. Association of Geomagnetism and Aeronomy, Helsinki, July 30, 1960.

The Magnetic Survey of the United States on JSTOR

This collection serves the needs of students and researchers in American legal history, politics, society and government, as well as practicing attorneys.

Magnetic tape (1950)

Such slight location error probably accounts for the lack of agreement in the 5 August and 15 August columns of Table 1, which shows data taken to test the permanency of a pattern previously scrambled by twisting the magnet over the area. Timiflkaming Sudbury Maniwaki Thxee Riyera Mattawa Noith Bay. Kafit Pier Gil Gil Gil Ania.

V. Ben Meen and the Riddle of Chubb Crater

The question arose whether to give values of the horizontal intensity exclusively, or values of total intensity exclusively. Value Mag'r Dip Circle Apia.

A Brief History of High

Señor Barrios, minister of foreign affairs of Guatemala, kindly supplied me, through our minister to Guatemala, with a letter of introduction to various government officials.

Comprising the meteorological and geophysical results obtained from autographic records and eye observations at the Lerwick, Aberdeen, Eskdalemuir, Valentia, and Kew observatories. Fold-outs, if any, are not part of the book. Subsequent observations showed that these bands were present in all comet spectra and that carbon was therefore an important constituent of comets.
