Philosophy of Religion: A Reader and Guide

The first apparently implies that God has knowledge of the future and thus has foreknowledge of human actions; the second, that some human actions are free. Indeed, in all cultures in which belief in a personal and caring Creator is prevalent, most people at one time or another have pondered the simple question, Why? Religious claims are of particular interest to philosophers because they raise so many important metaphysical issues.

The Philosophy of Religion Reader / Edition 1 by Chad Meister

William Paley THE CLASSICAL DESIGN ARGUMENT 22. I have been arguing that there are mental events of various kinds—sensations, thoughts, purposings, desires, and beliefs—and that these interact with brain-events, which are physical events. .
