Musk, who made these comments during a virtual keynote at the Mobile World Congress event in Barcelona on Tuesday, also provided other details about the current status of Starlink. With operations across five continents and a vast network of interconnected transportation solutions, we open new opportunities that accelerate the growth and pace of global business.

It may be a little while longer until Starlink hits profitability. Improving the customer experience is at the heart of everything we do, so we make purposeful investments in people, facilities and technical innovations that deliver the greatest customer value.
